J. J. Cashman, of New York city, is a guest at the Princess Islena.

Miss Lucy Blakeslee arrived from Virginia last week and is at the pleasant home of Mr. and Mrs. T. Frank Williams, Daytona, for several weeks' stay. Miss Blakeslee was visiting in Seabreeze Saturday evening.

The Misses Sparks, of Nashville, Tennessee, arrived from St. Petersburg Saturday morning and are pleasantly located on Ocean boulevard.

Mr. and Mrs. M. E. Bliss returned Saturday from their trip down the East Coast. They heard Madam Calve at the Royal Palm, Miami

Postmaster E. F. Britton returned Sunday from Greensboro, N. C., and is again at his post of duty.

The many friends of Miss Eaves, post-office assistant, will regret to learn that she is still quite sick.

Mrs. Mary W. Spilker, of Muncie, Ind., and Mrs. Zula M. Valentine, of same place, arrived from the interior and will spend some time at The Glenwood.

An alligator hunt on Major Russell's farm Saturday afternoon interested quite a number of people for the time being. M. L. Waggoner was driving north on Halifax avenue and had reached a point opposite Major Russell's farm when he saw a large alligator ambulating across the road in the direction of the river. He was such a large fellow that it occurred to Mr. Waggoner that he would be an object of interest to the tourists, he accordingly returned to town and gave out the information, and in short order Mr. Gray, Mr. Johnson and others, including a number of hotel guests, had started on the hunt. It took some little time to locate his alligatorship, and when found he was in the strip of woods just north of Major Russell's. He was surrounded and headed from the river. When an attempt was made to lasso him he put up a good fight, but was finally secured and taken in a wagon to town, where he is now on exhibition.

DAYTONA BEACH, March 16.—The Tofigny Club meets tonight with Miss Horn.

The teachers of the Seabreeze and Daytona Beach school visited the Daytona and New Smyrna schools Thursday and Friday. This gave them a pleasant change from the regular routine of school work.

Miss Irene Hand, of Nakomis, Ill. who is rooming at Mrs. Stewart's, starts north tomorrow.

Rev. G. L. Collins, Superintendent of the Anti-Saloon League of the State, gave an earnest and eloquent address at the M. E. Church Sunday morning on prohibition. He urged active cooperative work on the part of the temperance people everywhere for a constitutional amendment during the coming session of the Legislature for State wide prohibition. A collection was taken at the close of the address for money to finance the fight. Over \$100 was pledged.

A Poverty Social will be given for a church benefit at the parsonage Friday night. The promoters or committee wish it distinctly understood that it is an old clothes affair and those wearing their Sunday best will be subject to fines. Plenty of fun is anticipated. A program will be rendered and ice cream sold

Mr. and Mrs. W. F. Knight, who have been spending some time at their farm at Kingston, will move back home this week.

Ray Selden, who has been sick, was out today for the first time in a week. His father has been looking after the store in his absence.

Palmetto avenue is still to the front. Every lot has been sold on this street from Seabreeze avenue south, and the property owners have set sidewalk trees and planted out fruit trees and ornamental shrubbery. It has also been agreed among them to erect one water works station with sufficient capacity to supply the street. The latest purchaser of property on Palmetto avenue is A. J. Costa, of Hinkley, Ill., who bought lot 9, block 17, belonging to D. D. Rogers. Mr. Costa expects to build next fall. E. Weldon sold the property.

E. Weldon is circulating a petition to open, grade and shell Hollywood avenue.

**The Other Way.**  
"I heard that Rafter broke down in the middle of his speech the other night," said the man who was kept at home by illness.  
"Not exactly," replied the man who was there. "The meeting broke up right in the middle of his speech!"

The Modern  
Seven Wonders  
Daytona's Incomparable Ocean Beach.  
One of Daytona's crowning glories is  
her incomparable beach. No one who  
ever set foot upon its smooth, packed  
sands; no one who ever pedaled a bi-  
cycle over its expanse; no one who ever  
drove a prancing pair of horses and lis-  
tened to the popping of their steel shoes  
upon its asphaltum-like face; no one  
who ever steered a high-power automo-  
bile down the broad stretch of wave-  
washed and surf-packed sand but re-  
alized that it is a world-beater, a world-  
wonder. Go stand upon this wide  
speedway and see the happy souls flit  
by in joyous mood, and answer whether  
this is not one of the seven modern  
wonders.

The Placid, Pellucid Halifax River.  
Where think you is water with more  
picturesque surroundings? Nearly a  
mile wide, fringed with tropical vege-  
tation, artistic cottages with roomy ve-  
randa's looking out upon her bosom,  
gamey food fishes in countless numbers  
beckoning, as it were, to those with rod  
and reel; her bosom flecked with duck  
and coot and snowy-winged sea birds,  
which sit about as if for the sport of  
bobbing upon her waves; watch that  
lubberly old white headed pelican perch  
a fat mullet, and that fish hawk strug-  
gling upward with his floundering load  
he snatched from the water.  
See the beautiful launches, spick and  
span, their hampers and lockers bulging  
with refreshments both solid and li-  
quid ready for a cruise upon her beautiful  
surface. Take out your field glass and  
sweep the river from Ormond bridge to  
Ponce Park light house, then say  
whether the Halifax isn't a thing of  
beauty and a joy forever, and one of  
the modern wonders.

The Enchantingly Picturesque Ridgewood.  
Ridgewood avenue is upon the crest of  
a broad ridge, straight as the crow flies,  
and the wide-spreading branches of the  
heavy-trunked live-oaks extend their  
giant arms across this magnificent vista,  
forming an arch, and from these extend-  
ed arms great festoons of Spanish moss  
sway as the trade winds from tropic seas  
fan them. Looking straight ahead down  
this white shell street one has the im-  
pression of a fairy path with elfish dis-  
perses, but as you move along and cast  
an eye first to the right and then to the  
left you see distinguished cottage homes  
in the most delightful settings.

Surpassing Beauty of Our Cottage Homes.  
No one of Daytona's attractions, per-  
haps commands more nearly universal  
attention and praise than does the artistic  
cottage. The owners of these charm-  
ing villas hail from every corner of the  
country and they bring their own archi-  
tectural plans and build upon them, and  
as the architecture of one section of the  
country differs from the architecture of  
another so do our homes differ in out-  
ward appearance and structural beauty  
from one another. There are no monoton-  
ous rows of strikingly similar buildings  
but the eye, as it sweeps by, is treated to  
a kaleidoscopic change which keeps the  
mind wondering "What next?"

Streets and Pavements the Most and Best.  
Why the Architect of the Universe  
chose to give to Daytona the most ad-  
mirable, the most picturesque natural  
setting of all the cities of the South is  
not revealed but that such a fact  
must be apparent to the most superficial  
observer. With such lavish wealth of  
natural beauty it became an easy thing  
for the hand of man to give the little  
finishing touches which have brought  
out the colors and outlines of the big  
picture.

Man did all this in the laying out of  
the streets with their wide margins of  
parkage, the entire city becomes a  
great park  
And as for pavements, pavements  
that look and act like granite,—where  
else between the eastern and western  
seas are so many miles in proportion to  
inhabitants? Till some unheard-of  
place reports more and better, Daytona  
throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.  
Whatever one's shortcomings and  
however indifferent or even callous one  
may be to many things, the mere men-  
tion of "squirrels and flowers, birds and  
fruits" will send a thrill that is reflected  
in distended pupils and prickled ears.  
For every visitor with a spare "goo-  
ber" there is a bunny ready to come out  
and accept your gift. He will sit bolt  
upright and gnaw into the meat, casting  
furtive, saucy glances at you meanwhile.  
Flowers! Usually fresh and blooming  
the year 'round. In one yard roses of  
variegated hues predominate, another  
has a penchant for the poinsettia and the  
premises are aflame; another is hid-  
den in a jungle of tall cane.  
The birds flit in, and with their joyous  
notes help to give fullness and symme-  
try to the picture.  
As for fruits, choice citrus fruits, Day-  
tona yields the palm to none for quality  
and quantity per acre. There are scores  
of citrus groves in proximity to the city,  
branches bending to the earth with their  
burdens of luscious golden globes.

The Fastest Autos And The Finest Out.  
Here is where world's records for speed  
are broken with every recurring season.  
Autos the biggest, the fastest and the  
finest are on daily parade and the big  
show is as free as the pure artesian  
water from the thousand flowing wells.  
It is a continuous show with constantly  
shifting scene. You will probably catch  
the spirit and when you do the roads  
and the beach are yours. The Florida  
sunshine is free, the balmy ocean  
breezes are free, the birds and squirrels  
and flowers are free, the sparkling  
fountain water is free and you will have  
to go down in your wallet only for coin  
for the auto and bed and board.

This is no fanciful picture; it's all  
here. It is drawing other thousands  
and holding them enthralled, it will  
charm and hold you. Come and see.

**ERRATIC SCIENCE.**  
Some Wonderful Answers by School-  
room Small Boys.  
"Mushrooms always grow in damp  
places, and so they look like umbrel-  
las," wrote a small boy in the science  
examination. Other examples of the  
"howler" are compiled by a writer in  
the Scientific American:  
"Air is the most necessary of all the  
elements. If there were no such thing  
as air I would not be writing this es-  
say now, also there would be no pneu-  
matic tires, which would be a sad loss."  
"Electricity and lightning are of the  
same nature, the only difference being  
that lightning is often several miles in  
length, while electricity is only a few  
inches."  
"Air usually has no weight, but  
found to weigh about fifteen pounds to  
a square inch."  
"The axis of the earth is an imagi-  
nary line on which the earth is sup-  
posed to take its daily routine."  
"The difference between air and wa-  
ter is that air can be made wetter, but  
water cannot."  
"Gravity is chiefly noticeable in the  
autumn when the apples are falling  
from the trees."  
"Things which are equal to each  
other are equal to anything else."  
"A parallel straight line is one which  
if produced to meet itself does not  
meet."  
"The blood is putrefied in the lungs  
by inspired air."

**EATING TOO MUCH.**  
Overnutrition is Just as Harmful as  
Malnutrition.  
It is an acknowledged fact that al-  
most every soul of us eats too much.  
The digestive organs are constantly  
overstrained and finally weakened.  
When wisely followed, the practice of  
fasting can be most beneficial. An ex-  
pert on the food question has said that  
one should rise from the table with the  
feeling of hunger, which is an ex-  
perience known to very few of us.  
On the contrary, the majority of people  
leave the board with a sense of  
burden which only an hour's sleaze  
can alleviate. This is not so much  
owing to the fact that the food is un-  
commonly rich, for the rule of the  
simple life obtains now in the fash-  
ionable cuisine, but it is the quantity  
taken. There is a large community at  
the present moment which fasts from  
breakfast time till dinner at night. It  
is a question if it is wise to leave the  
stomach entirely without food during  
all those hours, but there is no ques-  
tion that the lighter the lunch taken  
the better will be the health of the  
individual. By a "light lunch" in this  
instance is meant what most people  
would not call a lunch at all—that is  
to say, a few crackers with cheese  
(a much maligned article of diet), a  
few nuts and a bit of fruit or a cup  
of cocoa with dry toast. Such a  
"feast" prevents the craving for food  
and in no way taxes the digestive or-  
gans. Overnutrition is just as harm-  
ful as malnutrition and is far more  
frequently the cause of maladies.  
With judicious fasting the system re-  
covers its lost tone, and mental work-  
ers would find that the brain worked  
with surprising lightness, for the brain  
is one of the chief sufferers from over-  
eating.—New York American.
